THE MARK

01

REPLAY.

PRIMARY — ON BLACK

REPLAY.

REVERSED — ON OFF-WHITE

REPLAY.

01 Always set in Archivo Black (900), uppercase, with the accent-red full stop.

02 Keep clear space of at least one cap-height on every side.

03 Use pure black or off-white backgrounds only — the mark is monochrome-first.

04 Minimum size: 18px / 5mm cap-height, screen or print.

– Don't recolor the wordmark or the accent dot.

– Don't stretch, rotate, outline or add drop shadows / effects.

– Don't place on busy photography without a scrim.

– Don't substitute another typeface for the wordmark.

COLOR

02

BLACK

HEX #0A0A0A
RGB 10 / 10 / 10

Primary background. The studio's default state — near-black, never flat pure-black on its own.

OFF-WHITE

HEX #F5F2EA
RGB 245 / 242 / 234

Primary text and reversed surfaces. Warmer than pure white — never clinical.

ACCENT RED

HEX #FF3819
RGB 255 / 56 / 25

The single accent. REC dots, the wordmark's full stop, active states — used sparingly, never as a fill.

BLACK SOFT

HEX #111110
RGB 17 / 17 / 16

Secondary surface for layering panels over the primary black.

PURE WHITE

HEX #FFFFFF
RGB 255 / 255 / 255

Reserved for rare high-contrast moments only — not the default light surface.

ACCENT — ON WHITE

HEX #C22710
RGB 194 / 39 / 16

Darkened accent for small text on light surfaces — holds AA contrast (4.5:1+).

VOICE

04

SHORT. CUT, NOT PADDED.

Sentences end before they need to. No filler adjectives, no "synergy," no corporate throat-clearing.

"Events happen once. We make them live forever."

CONFIDENT, NEVER BOASTFUL

State what the studio does plainly. Let the work carry the proof — don't oversell in copy.

"You build the event. We build the film."

FEELING OVER DOCUMENTATION

Every line should read like it understands the event, not just recorded it.

"Not a recap. The feeling, cut to picture."

PLAIN ABOUT WHAT'S REAL

Never invent clients, numbers or results. If it's a concept or placeholder, the copy says so.

"A visual study, not a client brief."

THINGS WE DON'T DO

- Boring aftermovies
- Generic corporate films
- Slow-mo handshakes
- Stock music
- "Synergy"

THINGS WE DO

- Energy
- Story
- Attitude
- Craft
- Films people actually want to watch

01

MONOCHROME UI, FULL-COLOR FOOTAGE

The interface stays black / off-white / accent-red. Photography and film are the only place full color lives.

02

HIGH CONTRAST, LIVE ENERGY

Handheld feel, real light, real crowds. Never overlit or stock-photo staged.

03

CUT LIKE A TRAILER, NOT A SLIDESHOW

Motion favors quick, purposeful cuts and clip-path reveals over fades and bounce easing.
