EVENT VISUAL IDENTITY

From KV to curtain call.

MERIDIAN — an annual industry summit — built once as a visual language, then carried across every surface an attendee will stand in front of.

KV → STAGE → SCREENS → SIGNAGE → DIGITAL → PRINT

Every touchpoint below reads at a glance as the same event — same mark, same grid, same restraint.

Every moment worth keeping, in ninety seconds.

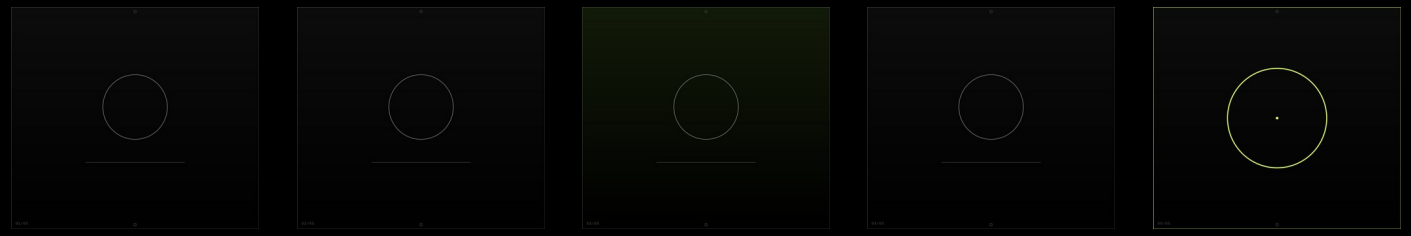

Arrival | Crowd | Take the Stage | Performance | Brand Moments | Finale

Energetic, premium, cut to the room's own soundtrack — an aftermovie that gets forwarded, not just archived.

EXPLAINER FILMS

Complicated ideas, made obvious.

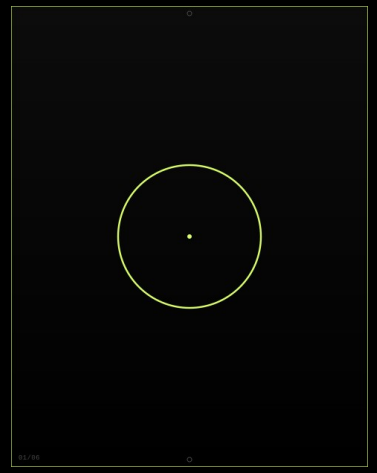

A fictional fintech product, AERO PAY, explained end to end — the pipeline stays sophisticated, never cartoonish.
